## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-3, 5-11, 13-17, 19-30 are allowed.
2. The following is an examiner's statement of reasons for allowance:

For claims 1, 9 and 19, applicant's invention combination including: " a set of latching arms attached to the main body, each latching arms extending to direction substantially parallel to the central axis, and being configured to latch the main body to the device when the main body receives and holds the cable connector and when the cable connector connects to the device. Wherein the main body defines a cable slot that extends in a direction that is substantially parallel to the central axis and along an entire length of the main body to enable the main body to receive and hold the cable connector" is not taught by Tennesen or suggested by other prior art of record.

Tennesen among other difference does not disclose all limitations of claims 1, 9 and 19, therefore, does not meet claims 1, 9 and 19 limitations which are basic to the invention, nor would inclusion of such feature be an obvious change.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
